Dear „Particle“ Accelerators!

Stop with your Idiocy!

Do you really want to go down in the history of science as a complete (unscrupulous) idiot?

What you are accelerating there with billions and billions of dollars are not „particles“, but (masses of) **aether waves** – aether waves, all of which can be exactly calculated mathematically easily and free of charge at your desk, quite simply (see Calculus Materiae, p. 253 ff.: Our Aether, see attachment).

Stop the madness, your stupid hunt and greed for (fake) Nobel prizes at the expense of others! Be a scientist, become reasonable!

And shut down your accelerator machine – let the money go to **good** causes!

Yours sincerely

G. E. Streibig alias Chyron
