Dear Mrs. Nguyen-Kim,

Your grandiloquent claims that there is sure evidence that „matter can think and has consciousness“ are ultimately just as racist as the claim that „one kind of brain can think better than another kind“ - or that „one kind of genes would produce a better human being than another“. So again nothing else than a very special sneaky, lying kind of racism (fascism), which is proclaimed and spread in the German public (via TV, via ZDF) as „scientific truth“. My hearty congratulations!

Just as the many (German) prizes, which you have been awarded in the meantime, are less a proof for the „scientificness“ of the TV journalist Mai Thi Nguyen-Kim, but - at least here in Germany, the international center of materialism & of a new, ,gendered‘ racism - rather for the exact opposite.

In this sense and with the very best regards

Your G. E. Streibig alias Chyron
